Combined Estimated Long-Term Fund Flows and ETF Net Issuance

Washington, DC; May 1, 2024—Total estimated outflows¹ from long-term mutual funds and exchange-traded funds (ETFs) were \$7.25 billion for the week ended April 24, 2024, the Investment Company Institute reported today. Estimated mutual fund outflows were \$19.09 billion while estimated net issuance for ETFs was \$11.83 billion. Reports of long-term flow estimates and ETF net issuance are available on the [ICI website](http://ICI.website).

Estimated Fund Flows

Millions of dollars

	4/24/2024	4/17/2024	4/10/2024	4/3/2024	3/27/2024
Equity	-6,571	-20,444	-5,535	33	3,499
Domestic	-2,299	-17,848	-3,502	-453	6,139
World	-4,273	-2,596	-2,033	486	-2,641
Hybrid	-3,190	-4,065	-1,438	-1,847	-1,634
Bond	1,831	-2,289	13,381	14,695	9,560
Taxable	1,205	-1,075	12,418	14,780	8,261
Municipal	625	-1,214	963	-85	1,299
Commodity	676	-110	-232	857	-191
Total	-7,254	-26,909	6,176	13,737	11,233

Note: Components may not add to the total because of rounding. Includes funds not registered under the Investment Company Act of 1940.

Equity funds² had estimated outflows of \$6.57 billion for the week, compared to estimated outflows of \$20.44 billion in the previous week. Domestic equity funds had estimated outflows of \$2.30 billion, and world equity funds had estimated outflows of \$4.27 billion.

Hybrid funds²—which can invest in stocks and fixed-income securities—had estimated outflows of \$3.19 billion for the week, compared to estimated outflows of \$4.07 billion in the previous week.

Bond funds² had estimated inflows of \$1.83 billion for the week, compared to estimated outflows of \$2.29 billion during the previous week. Taxable bond funds saw estimated inflows of \$1.21 billion, and municipal bond funds had estimated inflows of \$625 million.

Commodity funds²—which are ETFs (both registered and not registered under the Investment Company Act of 1940) that invest primarily in commodities, currencies, and futures—had estimated inflows of \$676 million for the week, compared to estimated

outflows of \$110 million in the previous week.

Notes: Weekly fund flows are estimates that represent industry totals, based on reporting covering more than 98 percent of mutual fund and ETF assets. Actual mutual fund net new cash flows and ETF net issuance are collected and reported separately on a monthly basis; therefore, there are differences between these weekly estimates and the monthly flows. Data for previous weeks reflect revisions because of data adjustments, reclassifications, and changes in the number of funds reporting. [Historical flow data](#) are available on the ICI website.

ENDNOTES

¹ Mutual fund data represent estimates of net new cash flow, which is new sales minus redemptions combined with net exchanges, while exchange-traded fund (ETF) data represent net issuance, which is gross issuance less gross redemptions. Data for mutual funds that invest primarily in other mutual funds and ETFs that invest primarily in other ETFs were excluded from the series.

² ICI classifies mutual funds and ETFs based on language in the fund prospectus. For a detailed description of ICI classifications, please see [ICI Open-End Investment Objective Definitions](#) or [ICI ETF Investment Objective Definitions](#).
